## LEVITON VOICE & DATA

### DP SERIES OPTICAL DISTRIBUTION ENCLOSURES

The DP Series Optical Distribution Enclosures are designed to protect, manage and organize fiber terminations in a rack-mount environment. Enclosures are LGX® compatible and allow users to fill and expand legacy systems.

DP Enclosures are available in 3 sizes and can be ordered with adapters, pigtail or preconnectorized cable stubs; the cable stub can be shipped on a reel for ease of deployment. All units can be purchased separately or in any combination to meet the users' installation needs.

### Configure a DP Enclosure

part numbers

DP SERIES OPTICAL DISTRIBUTION ENCLOSURES	PART NO.
Model No. DP-525, 3RU, Empty	DP03U-STD
Model No. DP-700, 4RU, Empty	DP04U-STD
