

## ARIA BUFFER TUBE & RIBBON FAN-OUT KITS

The ARIA Fan-Out Kits are designed for a simple and easy breakout from standard Buffer tubes or Ribbon cables. Kits are also pre-configured for 6 and 12 fiber applications with 36 inches of 900um Hytrel tubing in the appropriate industry color scheme. The black furcation unit is created from glass reinforced ABS. ARIA's Fan-Out kits have a unique snap together design that offers the ability to unsnap the unit for reentry if necessary. Each kit comes with the adapters that accommodate round cable configurations, such as Buffer tubes, and Ribbon cables. This cost saving feature allows you to cover all your application possibilities with just a single style, which is simpler and more cost effective.

### Specifications

Body Dimensions L 44 x W 12 x H 8 mm
