

Wallmount Racks

Cable Management, Cable Clamps, and Racks

ARIA Wallmount Racks provide a quick and easy way to wallmount panels designed for rackmount applications.

The 19.00" EIA Compliant mounting design provides support for all standard 19" rackmount panels.

Simply attach the rack to a mounting surface using the included fasteners and it is ready to mount panels.

The compact size and open design provides easy access to cables and equipment.

The 3RU features a rigid and durable one piece steel design with rounded corners that prevent damage to personnel and equipment and requires no assembly.

The 11RU features a multi-piece design with press-fit nuts that make it easy to assemble and facilitates efficient storage, transportation and deployment.

Both designs provide a compact and secure mounting platform with a black powdercoating for a durable and enhanced material finish.

3RU Wallmount Rack

Specifications

Parameter	Value
Material	3.6mm Thick Steel
Material Finish	Black Powdercoat
Dimensions (Inches)	21.75 x 2.0 x 6.5 (HxWxD)
Mounting	Wall
Panel Capacity	3RU
Weight (Empty) (lbs)	2.5
Weight Limit (lbs)	100
Part Number	3RU-WM-RACK

11RU Wallmount Rack

Specifications

Parameter	Value
Material	2.0mm Thick Steel and 3.0mm Thick Aluminum
Material Finish	Black Powdercoat
Dimensions (Inches)	23 x 20.5 x 12.6 (HxWxD)
Mounting	Wall
Panel Capacity	11RU
Weight (Empty) (lbs)	10.9
Weight Limit (lbs)	200
Part Number	11RU-WM-RACK
