

Splice Protection Sleeves

Components and Installation Tools

ARIA Splice Protection Sleeves provide mechanical and environmental protection for fusion splices of fiber.

ARIA Splice Sleeves are compatible with most of the industry standard fiber management systems and organizers.

ARIA Splice Sleeves are available for single fusion splicing of single fibers and mass fusion splicing of multiple fibers.

Mass fusion splice sleeves protect ribbons with two to twelve fibers.

Features

- Protect single or mass fusion splices
- Fits into most splice holders
- Quick shrink-down time
- Low temperature hot-melt adhesive encapsulates the splice
- Ceramic rod ensures proper alignment and rigidity

Part Number

Description	Part Number
40mm single fusion splice sleeve	AT-3A-X40
60mm single fusion splice sleeve	AT-3A-X60
45mm ribbon mass fusion splice sleeve	AT-SPLSV-RIB-45MM
